EMPLOYMENT HISTORY

Jan 2023 — Feb 2024

Analyst, Deloitte Digital
Hong Kong

- Developed the Deloitte Digital Day 2023 website as a front-end developer, providing guests with seamless access to event information, activity booking, and check-in features, enhancing their overall experience.
- Contributed to the development of the Android, WeChat Mini-program shopper app and Salesforce CRM for a local shopping mall as a developer, defining technical requirements and implementing changes.
- Managed production support as a production support lead, ensuring the resolution of issues and the smooth operation of front-end and back-end systems.
- Took responsibility for hosting daily meetings and aligning requirements with the client as a functional lead, fostering effective communication and facilitating smooth development processes.

Jun 2022 — Dec 2022

Intern, Deloitte Digital
Hong Kong

- Contributed to the development of a mobile app for an F&B company as a front-end developer, collaborating with a team of developers and designers.
- Maintained and upheld the mobile app and back-end services for an F&B company, ensuring seamless functionality.
- Conducted regular updates and feature enhancements to optimize the user experience.
- Resolved production issues for both front-end and back-end, ensuring smooth operations and minimal downtime.
